

Job Vacancies

Due to continued growth driven by new patented, innovative technical fabrics & products Aburnet are now recruiting Warp Knitters/ threaders, pattern changers, warpers & mechanics.

Aburnet are a manufacturer of niche HACCP International certified hair containment solutions to the global food industry. We produce market leading, branded and patented products developed in house working with Universities and experts in relevant fields.

We are currently developing new innovative products with a bespoke online app. This will bring significant further growth opportunities from both UK and export markets.

Positions Available: Knitters/Threader Operatives, Pattern Changers, Direct/Sectional Warp Operatives & Mechanics.

Start Date: Immediate

Experience Required: Manufacturing textiles with warp knitting experience.

Job Description: Operate warp knitting machines & direct/indirect warping heads in a fast paced environment to high quality standards. Mechanics should have the ability to repair & maintain warp knitting machinery preferably with knowledge of Karl Mayer machinery. Handling & threading of fine yarn & packages to strict specifications and timings, good eye for detail to inspect fabrics & ability to work with mechanical tools.

Salary: Negotiable dependant on experience.
