

Hair nets that aren't irritating to wear?

Sometimes you just can't wait to take your hairnet off after an event as the joins on the hairnet can be really uncomfortable to wear and literally give you a headache. In fact in a lot of cases the joins at the front can leave a mark. They can be that painful!

Finally an affordable hair net, Equi-Nets can be worn pain free. Featuring a knot-free single sewn join, worn at the nape they are comfortable and smart. The smooth sewn join being at the nape of your head tucked underneath means perfect presentation for events.

Equi-Nets triple elasticated comfort band ensures no matter what your hair type it will fit perfectly under a riding hat. For those with long hair it comes with a matching hair tie, so you can tie your hair up and achieve the look you desire.

Each pack contains two Equi-Nets and one matching hair tie. Available in five colours to match your individual hair colour. The comfortable elasticsation means the perfect profile can be maintained all day long.

They really are that much more comfortable.
