

EQUINETTM

Knot Free, Flat Sewn, Triple Elastic Equine Hair Nets

How To Wear

1. Using the matching Hair Tie put your hair in a pony tail or bun. Tying your hair up and under the net ensures all your hair stays in place.

2. Comb the net on to your head putting the band at the front and the join at the back. As you push on lift over your hair style at the back of your head.

3. Ensure the flat-sewn join is worn at the back in the recess of the nape. This gets rid of the problem of hair nets leaving a mark on your forehead, giving you a headache.

5. Finally place on your hat, to achieve the perfect presentation.

4. Reposition so the band lies flat and all hair is enclosed, to achieve the perfect look. Once achieved the net will stay in place for the entire event.
